

TriF-L Fiber-Optic Cable

▶ Product Description

The TriF-L Series cable is a fiber optic transmission cable for 4K audio and video signals. The cable supports 4K@60Hz (4:4:4) Ultra HD signal transmissions all while being plug and play without a need of an external power supply or signal amplifier. It can transmit a 4K signal to 300 meters.

▶ Features

- HDMI A-type standard connector
- Compliant with the latest HDMI 2.0 specifications
- Maximum bandwidth of 18Gbps (single channel 6Gbps)
- Supports up to 4K@60Hz (4:4:4)
- Supports HDCP v2.2, EDID, CEC
- Transmits high frequency signals over optical fiber without electromagnetic interference
- MPO separate pure fiber structure for a lightweight design
- Support three type of interface : DVI, DP, HDMI

▶ Product Model

Model	Name
TriF-L-XH-10	4K@60Hz HDMI 10m pure optical transmission line
TriF-L-XH-15	4K@60Hz HDMI 15m pure optical transmission line
TriF-L-XH-20	4K@60Hz HDMI 20m pure optical transmission line
TriF-L-XH-25	4K@60Hz HDMI 25m pure optical transmission line
TriF-L-XH-30	4K@60Hz HDMI 30m pure optical transmission line
TriF-L-XH-40	4K@60Hz HDMI 40m pure optical transmission line
TriF-L-XH-50	4K@60Hz HDMI 50m pure optical transmission line
TriF-L-XH-60	4K@60Hz HDMI 60m pure optical transmission line
TriF-L-XH-100	4K@60Hz HDMI 100m pure optical transmission line
TriF-L-XH-150	4K@60Hz HDMI 150m pure optical transmission line
TriF-L-XH-200	4K@60Hz HDMI 200m pure optical transmission line
TriF-L-XH-300	4K@60Hz HDMI 300m pure optical transmission line
